

## Tropical Storm Harvey 2017 8/31/2017 – 1700 CDT Update

### HIGHLIGHTS

#### Texas

Arkema is reported as of 4:30 pm that three additional peroxide trailers are close to Self-Accelerating Decomposition Temperature (SADT). The three trailers nearing SADT are reportedly within thirty feet of each other. Region 6 continues to work with Interagency Modeling Atmospheric Assessment Center on modeling of anticipated future releases at the site. The modeling products are being delivered to Unified Command.

Poison Control Centers are set up in Texas to help citizens who have health concern questions concerning the Arkema facility, as well as any other flood related health questions.

Region 6 is coordinating with counterparts in Beaumont/Port Arthur, Texas in charge of potential response activities including the Texas Commission on Environmental Quality (TCEQ) in Beaumont, the Texas General Land Office in Nederland, and the U.S. Coast Guard in Port Arthur. All agencies are limited in their ability to conduct assessments due to the flood waters that continue to rise. Flood waters are predicted to crest over the weekend and response partners plan to initiate Rapid Needs and Shoreline assessments next week. The USCG has not observed oil or hazardous materials releases during rescue operations in the area. If the area is accessible, EPA, TGLO, and TCEQ will establishment of a Unified Command near the USCG office in Port Arthur, Texas.

On August 31, 2017, the EPA representative at the FEMA's Regional Response Coordination Center reported that the City of Beaumont is out of potable water. The drinking water system's pumps are underwater and not functional.

#### Louisiana

The EPA Regional Emergency Operations Center Liaison for the State of Louisiana, is reporting that the Louisiana Department of Environmental Quality (LDEQ) does not currently have any environmental emergencies resulting from the Hurricane Harvey rainfall. To date, LDEQ has not set up its IMT and does not plan to unless something significantly changes. LDEQ is making calls associated with some waste

water treatment plants in the area. The main focus for Louisiana at this point is supporting individuals evacuating from impacted areas in Texas. EPA continues to monitor the situation in Louisiana and stay in close communication with LDEQ.

## Resources

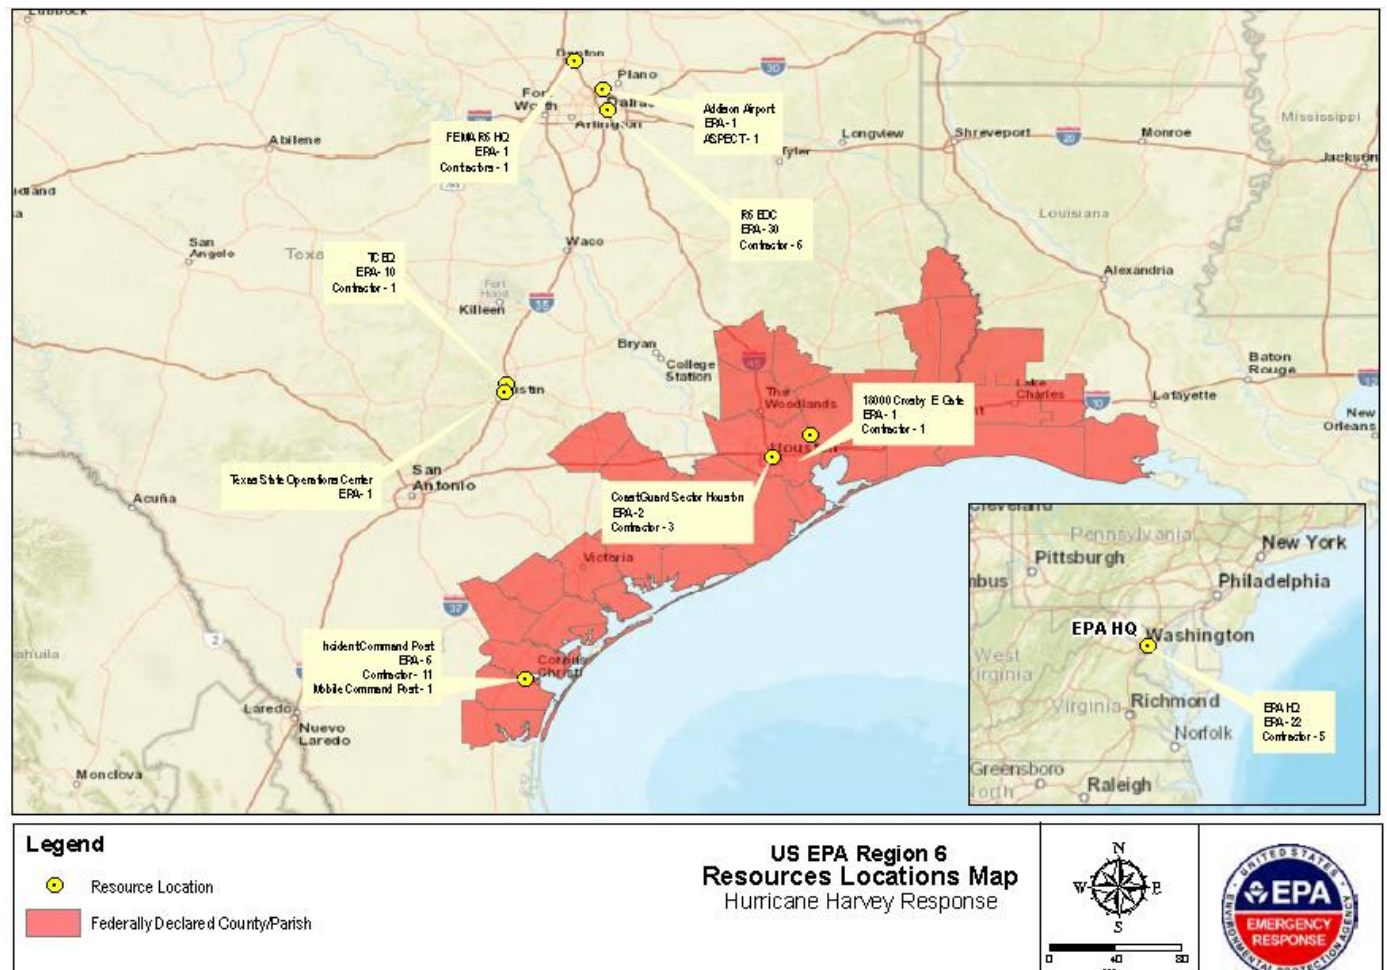

| Personnel                | EPA Dallas, TX | FEMA Denton, TX | Texas SOC Austin, TX | TCEQ Austin, TX | Houston, TX | Corpus Christi, TX | HQ EOC Wash DC | Totals |
|--------------------------|----------------|-----------------|----------------------|-----------------|-------------|--------------------|----------------|--------|
| <b>EPA</b>               | 30             | 1               | 1                    | 10              | 2           | 6                  | 22             | 72     |
| <b>START</b>             | 5              |                 |                      | 1               | 3           | 5                  |                | 14     |
| <b>ERRS</b>              |                |                 |                      |                 |             | 6                  |                | 6      |
| <b>Other Contractors</b> | 1              |                 |                      |                 |             |                    | 5              | 6      |
| <b>TOTAL</b>             | 36             | 1               | 1                    | 11              | 5           | 17                 | 27             | 98     |

\*Additional personnel who are in transit may not be reflected in resource table.

On August 31, 2017, EPA deployed four teams made up of On Scene Coordinators and contractors to Houston to coordinate with TCEQ, TGLO, and US Coast Guard and begin responding to releases and spills at facilities. The teams will conduct rapid needs assessments, oil assessments, and hazards evaluations. These teams are scheduled to begin sampling the flood water on Saturday September 2, 2017. The flood water will be analyzed for volatiles, semi-volatiles, pesticides, Polychlorinated Biphenyls (PCBs), and Total Analyte Metals (TALs).

EPA is deploying four teams of On Scene Coordinators and contractors to Beaumont-Port Arthur to coordinate with TCEQ, TGLO, and US Coast Guard in responding to releases and spills at facilities. These teams will stage in Houston until weather allows them to enter the Beaumont-Port Arthur area.

On Saturday, September 2, 2017, EPA will send four additional Drinking Water/Wastewater Assessment Teams to Corpus Christi, and four Drinking Water/Wastewater Assessment Teams to Houston.

## Spill/Release Response

| Hotline Calls as of August 31, 2017   |    |
|---|----|
| Number of Harvey Related Calls Received During Reporting Period 0100 and 1300 hrs | 9  |
| Total Number of Harvey Related Calls to Date                                      | 63 |

On August 31, 2017 the Unified Command has five teams in the field conducting reconnaissance. The teams consist of personnel from TCEQ, Civil Support Team (CST), EPA, and a USCG. These teams are conducting hazard evaluations of orphaned containers found during field reconnaissance in Corpus Christi. An additional twelve teams consisting of USCG and TCEQ were deployed to Houston to conduct hazard evaluations of orphaned containers found during field reconnaissance. Evaluations are used to determine actions needed to stabilize or remove items in the future. One TCEQ water infrastructure team is conducting water system assessments in the Corpus Christi area.

The Conoco Phillips facility in Cuero, Texas reported a 316-barrel oil spill due to Hurricane Harvey. The spill impacted Denton Creek. This was originally reported on August 29, 2017. On August 31, 2017, Conoco Phillips indicated that they cannot drive to the facility. The Texas Railroad Commission and USCG drove as close to the facility as they could yesterday. No sheen of oil was observed, but the water flowed at a good pace. Waters are receding in the area and personnel will likely be able to access the facility to better assess the release and perform a response in the next day or so. Conoco Phillips is updating their release totals to 385 barrels of oil and 76-barrel produced water since the tanks are on their side.

### EPA Emergency Response Assets

ASPECT is making multiple overflights of the Arkema facility. Preliminary indications from the onboard infrared monitoring instruments indicate peroxide emissions. These detections were made about 200 meters downwind of the plant.

### Quality Assurance Sampling Plans (QASP)

Regional Emergency Operations Center Environmental Unit (EU) members have incorporated Headquarters Emergency Operations Center (HQ EOC) comments into the EPA QASP for surface /flood water. As of August 31, 2017 the surface/flood water QASP is going through the approval process. The EU is incorporating HQ EOC comments into the QASP for dirt. These sampling plans have been created to address public health concerns regarding possible contaminants found in storm water and soil that was displaced during the storm.

### Drinking Water / Wastewater Assessments

One Water Infrastructure team consisting of two TCEQ staff are assessing systems based on information developed by the TCEQ/EPA call bank in Austin, TX. Additional EPA Region 6 Water

Team members are prepared to deploy to Corpus Christi once lodging is established.

EPA continues to support TCEQ in contacting drinking water and waste water systems. EPA deployed 10 personnel to assist TCEQ's Drinking Water and Waste Water Phone Bank located in Austin, Texas on August 28, 2017.

### **Drinking Water - Total # of Systems: 4512**

| STATUS  | NUMBER OF SYSTEMS |
|---|-------------------|
| Contact Pending   | 202               |
| Bacteria Sample Results Pending   | 5                 |
| Out of Contact  | 21                |
| On generator – lost pressure  | 7                 |
| No problems   | 421               |
| On generator – never lost pressure  | 19                |
| No Status   | 3750              |
| Lost pressure & or Treatment  | 39                |
| Site visit needed   | 1                 |
| Lifted boil water notice due to negative bacteria samples. Normal Ops resumed | 10                |
| Not Operating   | 37                |

### **Waste Water - Total # of Systems: 2467**

| STATUS   | NUMBER OF SYSTEMS |
|--|-------------------|
| Contact Pending - Phone evaluation only  | 52                |
| Out of Contact - phone evaluation only   | 5                 |
| No Problems  | 402               |
| No Status  | 1942              |
| Waste Water Treat. Plant and/or Collection on Generator or bypass pumps for Lift Station | 24                |
| Waste Water Treat. Plant and/or Collection non-operational no Sanitary Sewer Overflow    | 27                |
| WWTP and/or Collection Partially Operational Sanitary Sewer Overflow                     | 15                |

### **EPA Laboratory/ Analytical Services**

The Houston laboratory will be closed until Tuesday September 5, 2017. The laboratory and office building are not damaged. EPA has back up capabilities for laboratory services should the Houston facility remain closed.

EPA's organic chemical mobile laboratory arrived in San Antonio, Texas on August 31, 2017. The mobile laboratory can be utilized to process environmental samples.

## **Data Management**

Continue to support operations in Corpus Christi and the Houston/Crosby area. Continue to coordinate with and support the TCEQ/EPA Drinking Water and Waste Water teams with their assessment operations. Continue to work with the PIO on a public information strategy that shows EPA resources deployed and the status of NPL Sites in the impacted areas.

## **Communications**

Under a FEMA Mission Assignment, EPA deployed a Public Affairs Officer to the ESF-15 Joint Information Center in Austin. The EPA Public Information Unit in Dallas is fully operational and supported by a Public Information Assistance Team (PIAT). An EPA PIO is also in Corpus Christi to support operations at the ESF-10 Unified Command.

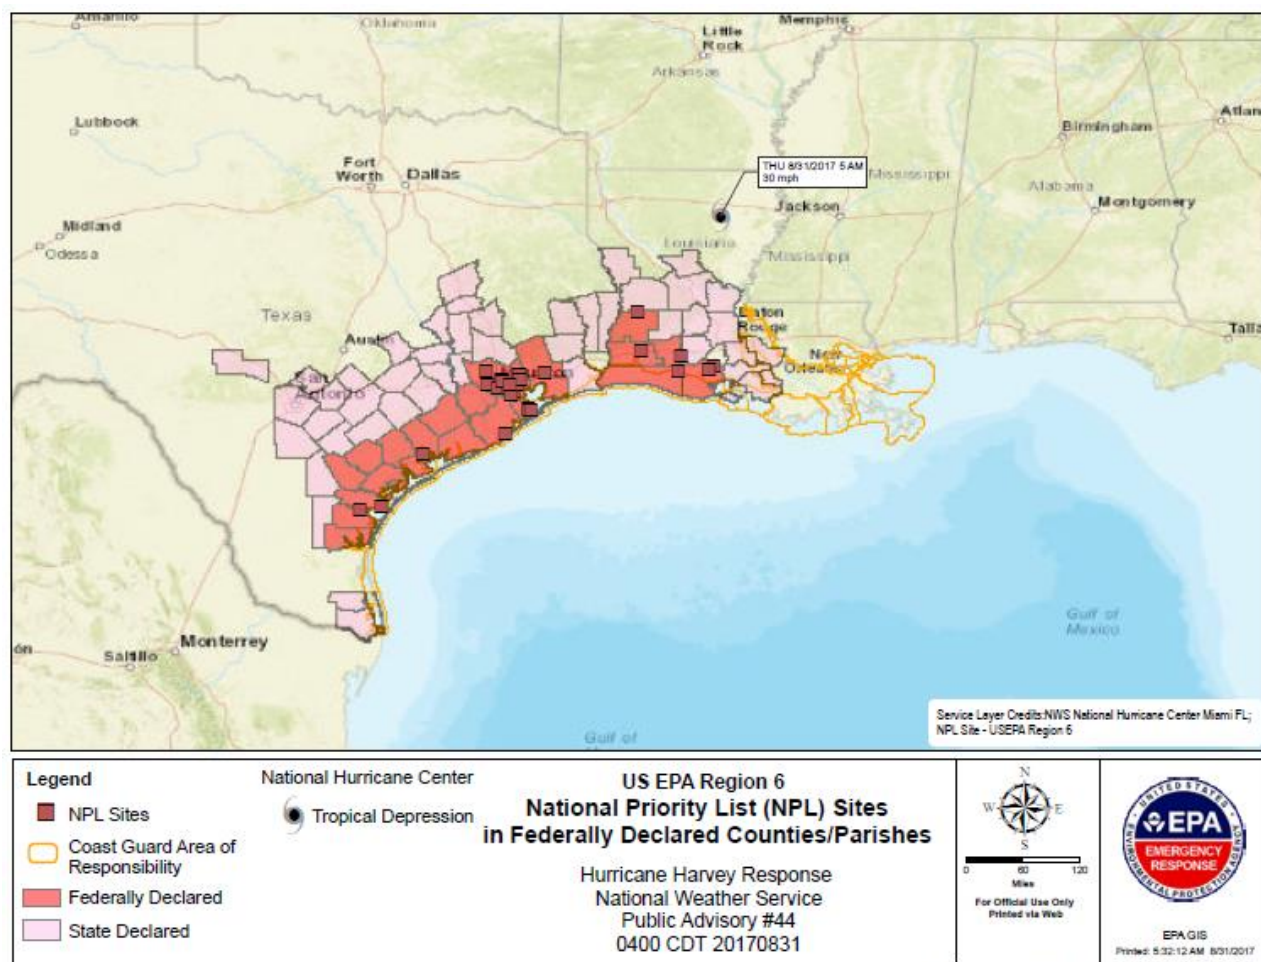

## **Refineries/Fuel Waivers**

1. TEXAS: EPA approved the State of Texas' request to extend the Texas fuel waiver to allow use of non-road diesel fuel in on-road applications. This non-road fuel has different tax treatment, and to differentiate it, is colored with red dye. The Internal Revenue Service (IRS) issued a waiver of the dyed diesel fuel penalty through September 15, 2017. The IRS will not impose a penalty when dyed diesel fuel is sold for use or used on the highway.
2. LOUISIANA: A waiver that would allow use of 9.0lb. RVP was approved on 28 August. LDEQ thanked EPA, R6 and Department of Energy for the quick turnaround and assistance this week
3. OKLAHOMA: A statewide low Reid Vapor Pressure (RVP) fuel waiver request was submitted on August 28, 2017, and amended their request on August 30 expanding 11.5 RVP waiver nationwide.
4. ARKANSAS: The State is drafting a waiver request to temporarily waive the requirement for low 9.0lb RVP fuel.
5. On August 30<sup>th</sup>, EPA issue a waiver for the temporary use of 11.5 PSI RVP gasoline in the following states: Alabama, Georgia, Kentucky, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, Texas, Louisiana, Florida and the District of Columbia. For Texas and Louisiana, it expands the waiver coverage area from the earlier waiver granted.
6. EPA issued a waiver for 38 states and the District of Columbia of all low volatility gasoline requirements in any State Implementation Plan that applies in the designated states. This waiver now includes all five Region 6 states: Arkansas, Louisiana, New Mexico, Oklahoma and Texas. The waiver for El Paso, Texas goes until September 16, 2017 due to their State Implementation Plan requirements.

## Funding

| Funding Sources        | Funding Ceiling | Spent to Date | Remaining Balance | Daily Burn Rate |
|------------------------|-----------------|---------------|-------------------|-----------------|
| Non Mission Assignment | N/A             | \$64,200.00   | \$0.00            |                 |
| MA 4332DR-TX-EPA-01    | \$20,000.00     | \$0.00        | \$20,000.00       |                 |
| MA 4332DR-TX-EPA-03    | \$8,592,000.00  | \$75,864.86   | \$8,516,135.14    | \$37,932.43     |
| Totals:                | \$8,612,000.00  | \$75,864.86   | \$8,536,135.14    |                 |

## Superfund NPL Sites

|  |                |                 |               |
|--|----------------|-----------------|---------------|
| Superfund Sites within Federally Declared Counties |                |                 | 8/31/2017     |
|  | Status Summary |                 |               |
| TEXAS  |                |                 |               |
| SITE NAME  | Inspected      | Offsite Release | Onsite Damage |
| BRINE SERVICE CO.                                  | 8/30/17        | No              | No            |
| FALCON REFINERY                                    | 8/30/17        | No              | No            |
| ALCOA (Point Comfort) / LAVACA BAY                 |                |                 |               |
| BRIO REFINING INC.                                 |                |                 |               |
| CRYSTAL CHEMICAL CO.                               |                |                 |               |
| DIXIE OIL PROCESSORS INC.                          |                |                 |               |
| FRENCH, LTD.                                       |                |                 |               |
| GENEVA INDUSTRIES / FUHRMANN ENERGY                |                |                 |               |
| GULFCO MARINE MAINTENANCE                          |                |                 |               |
| HARRIS (FARLEY STREET)                             |                |                 |               |
| HIGHLANDS ACID PIT                                 |                |                 |               |
| JONES ROAD GROUNDWATER PLUME                       |                |                 |               |
| MALONE SERVICES COMPANY                            |                |                 |               |
| MANY DIVERSIFIED INTERESTS, INC                    |                |                 |               |
